February 2018

Joint Owner's Forum Luncheon

Join the CMAA New England Chapter and the SAME Boston Post for an update on the Commonwealth's \$2.3B MBTA Green Line Extension and the economic benefits that transportation-oriented development brings to the communities of Cambridge, Somerville and Medford, Massachusetts.

The panel discussion will be moderated by Janice M. Bergeron, President and CEO at RND Consultants, Inc., a veteran of regional transportation and development projects. Janice will be joined by John Dalton, Massachusetts Bay Transportation Authority Green Line Extension (GLX) Program Manager who will provide a project update. Rounding off our panel is BLDUP, Inc. founder Noah J. Coughlin. Noah will share business intelligence and data analytics of mapped trends of activity along the surrounding GLX communities.

Janice M. Bergeron – President and CEO of RND Consultants, Inc.

Janice has worked in the engineering and construction industry for 25 years with a focus in complex transportation-oriented development projects, providing leadership to project teams from inception through construction close-out.

John Dalton, Massachusetts Bay Transportation Authority Green Line Extension (GLX) Program Manager

John was in 2016 recruited by the Commonwealth of Massachusetts to oversee the \$2.3 billion Green Line extension to the communities of Cambridge, Somerville and Medford, Massachusetts.

Noah J. Coughlin, BLDUP, Inc. Founder

Noah founded BLDUP, Inc. in 2009 to provide a central clearinghouse for new development and construction projects online. Working with a team of data scientists and research analysts, Noah has created a business intelligence and data analytics platform that can map trends of activity in different neighborhoods within the Boston market.
