July 2018

Project Management is Risk Management and Risk Management is Project Management

Gerald P. "Jerry" Klanac:

Jerry Klanac is a Managing Director with PMA Consultants LLC and has been with PMA since 1989. Prior to joining PMA, Jerry was a cost & schedule engineer for Exxon Research and Engineering Company and successfully controlled several refinery projects. He has more than 35 years project management experience for United States and international construction projects, especially in oil and gas, petrochemical, pharmaceutical, infrastructure and water/wastewater. He has consulted on projects with a cumulative value of over \$50 billion. Currently, Jerry oversees PMA's Global Oil and Gas practice and has been a leader within PMA's risk management practice for the past 18 years, conducting more than 100 qualitative and quantitative risk assessments for a variety of worldwide clients. Jerry's helped to develop PMA's risk analysis process, which is becoming a generally accepted practice. The track record for forecasting outcomes based on PMA's risk analysis process is exceptional. Jerry has significant expertise in project cost / schedule controls, project scheduling, cost estimating, evaluating construction labor productivity, expert analysis and evaluation of change orders and claims, developing project management processes, preparing contract strategies, and conducting probabilistic analysis of cost estimates and schedules. Jerry also is an accomplished project management trainer, teaching courses at University of Dayton, Moscow School of Management (SKOLKOVO) as well as in client environments. Jerry has an M.B.A. from the University of Chicago and a B.S in Civil Engineering from the University of Dayton.

Eric Lowther:

Eric Lowther has more than 20 years of experience in construction planning, contract administration, owner's representative, and program / project management. His experience includes complex projects spanning major transportation, power, airport, water, wastewater, process, pharmaceutical, healthcare, architectural and infrastructure industries. Throughout his career, he has gained significant expertise in project controls, project management, claims analysis and quantitative schedule risk analysis. Mr. Lowther has analyzed construction costs, damages, schedule delay, adverse weather impacts, differing site conditions, acceleration, disruption and labor productivity. He is a certified Project Management Professional and a LEED Accredited Professional.

Event Date, Time & Location:

Tuesday, December 18, 2018

7:15 AM – Registration & Breakfast

8:00 AM – Presentation & Questions

9:00 AM – Questions and Closing

Wentworth Institute of Technology

Beatty Hall, Rm 119 (Back of Cafeteria)

550 Huntington Avenue

Boston, MA 02115
