

NetPoint + GPM CONFERENCE

May 13 – 14, 2021

NetPoint + GPM Conference focuses on software innovation for planning, scheduling, and risk management for the construction industry. Project managers, software developers, and company leaders share case studies and their expertise in using NetPoint®, a planning and scheduling app that allows for collaboration, and NetRisk™, a schedule risk analysis program. Both NetPoint and NetRisk are powered by GPM®, a flexible scheduling algorithm that enables real-time feedback.
